OpenStreetMap.org

is a free editable map of the whole world made by people like you.

OpenStreetMap allows you to view, edit and use geographical data in a collaborative way from anywhere on Earth.

The map on the other side of this sheet shows the existing information the project has around an area in Liverpool.

You can help by taking this sheet and adding more information to it. Fill in any road names that are missing and add on as much information about interesting places that you can. Examples would include post boxes, post offices, pubs, parks, schools, supermarkets and other landmarks.

Once you've collected the information either scan the page in and email it <email address> or post it to:

> Stuart Roberts
> FACT (Foundation for Art and Creative Technology)
> 88 Wood Street
> Liverpool, L1 4DQ

If you're interested in finding out more about OpenStreetMap in Liverpool email <email address> or visit this address:
